

- Happy birthday, Acta!
 The Swedish Knee Arthroplasty Register (www.knee.se): The inside story
 The Swedish Hip Arthroplasty Register (www.shpr.se): The inside story
 The value of arthroplasty registry data
 Statistical analysis of arthroplasty register data
 Treatment of the displaced femoral neck fracture, as reflected in *Acta Orthopaedica Scandinavica*: The rise and fall of internal fixation
 The Classic—Walldius, Börje: “Arthroplasty of the Knee Using an Endoprosthesis: 8 Years’ Experience”, *Acta Orthopaedica Scandinavica*, 1960; 30: 1, 137–148
- Original papers**
- Uncemented and cemented primary total hip arthroplasty in the Swedish Hip Arthroplasty Register: Evaluation of 170,413 operations
 Cementless total hip arthroplasty for primary osteoarthritis in patients aged 55 years and older: Results of the 8 most common cementless designs compared to cemented reference implants in the Finnish Arthroplasty Register
 Increased risk of revision of acetabular cups coated with hydroxyapatite: A Swedish Hip Arthroplasty Register study involving 8,043 total hip replacements
 Survival of primary total hip arthroplasty in rheumatoid arthritis patients: Findings in 1,661 arthroplasties in 1,395 patients from the Danish Hip Arthroplasty Registry
 Outcome of primary resurfacing hip replacement: evaluation of risk factors for early revision: 12,093 replacements from the Australian Joint Registry
 Poor outcome of revised resurfacing hip arthroplasty: 397 cases from the Australian Joint Replacement Registry
 Cancer risk is not increased after conventional hip arthroplasty: A nationwide study from the Finnish Arthroplasty Register with follow-up of 24,636 patients for a mean of 13 years
 Knee arthroplasty in Denmark, Norway and Sweden: A pilot study from the Nordic Arthroplasty Register Association
 Unicompartamental knee arthroplasty in patients aged less than 65: Combined data from the Australian and Swedish Knee Registries
 Outcome of revision of unicompartamental knee replacement: 1,948 cases from the Australian Orthopaedic Association National Joint Replacement Registry, 1999–2008
 Does patella resurfacing really matter? Pain and function in 972 patients after primary total knee arthroplasty: An observational study from the Norwegian Arthroplasty Register
 Early outcomes of patella resurfacing in total knee arthroplasty: A report from the Australian Orthopaedic Association National Joint Replacement Registry
 Total ankle replacement: a population-based study of 515 cases from the Finnish Arthroplasty Register
 The Canadian Joint Replacement Registry—what have we learned?
 Can orthopedic trials change practice? A survey of 796 orthopedic surgeons on the possible findings of a hip fracture trial
 A stature-specific concept for uncemented, primary total hip arthroplasty: 10-year results in 155 patients using two stem shapes and modular necks
 Femoroacetabular impingement and classification of the cam deformity: the reference interval in normal hips
 Salvage arthrodesis for failed total ankle arthroplasty: Clinical outcome and influence of method of fixation on union rate in 18 ankles followed for 3–12 years
